

# For Happy Days.

## Customer Success Story

COMPANY: FOREVER MANCHESTER | SECTOR: CHARITY: | SOLUTION: DEDICATED SERVER

Forever Manchester is the only charity that raises money to fund and support community activity across Greater Manchester. Their belief is that connected communities make stronger, happier communities which is why they love any activity that brings people together.

Forever Manchester cares about those people who care enough to act, which is why they champion local people doing extraordinary things together. And when advice, encouragement and funding is needed, Forever Manchester is there to provide a helping hand to support them.

Forever Manchester has delivered over £39 million worth of community funding

across Greater Manchester over the last 30 years, benefiting 1.1 million people.

All of the money raised for Forever Manchester is used to fund and support over 1,000 community projects in Greater Manchester each year. This means Forever Manchester will have supported community activity within a mile of your home or business if it's in Greater Manchester.

**Datacentreplus** has been a long-time supporter of Forever Manchester, actively supporting their activities and events to raise awareness of a broad range of social issues affecting Manchester's community.

More recently, our team played a key role in promoting Forever Manchester's popular [Captain Manchester](#) summer campaign on social media.

## Technical Approach:

---

Forever Manchester approached Datacentreplus in 2019, emphasising their website is critical to their portal highlighting the work they do. Their website is also their main communication channel to the outside world, so it was essential that they partnered with a company that could provide a reliable service to accommodate their needs. In addition to this, they were keen to work with a company that shared in their ethos of helping others. This made us the ideal hosting partner for them.

The Forever Manchester site is very media-rich so right from the beginning we knew they **needed a powerful server with lots of fast SSD storage** and low-contention as the site receives thousands of visits every day. Our technical team worked very closely with the Forever Manchester developers to ensure the specification of the server was right.

*Nick Massey, CEO at Forever Manchester says:*

*“Datacentreplus recently took over the hosting needs of Forever Manchester’s website. They were friendly, efficient, quick, great communicators and professional”.*

## Proud Supporters:

---

*Stephen Hobson, Business Manager for Datacentreplus and Ambassador at Forever Manchester added:*

*“We’re very proud to provide the hosting platform for Forever Manchester and look forward to providing them a great service for years to come”.*
